

## SAMPLE WRITING SERVICES

We could help you with your writing. Here are some examples of what we could do for you:

\$2.00 a page: Simple review of writing.

\$4.00 a page: Correcting minor errors.

\$10.00 a page: Major rewriting.

\$20.00 a document. To reformat the document's appearance.

\$20.00 a document: Convert a document from Microsoft Word to LaTeX. (ACM and IEEE use this for their publications.)

\$20.00 a page: Take a document in Chinese and translate to American English.

\$25.00 a document: Technical review by our subject knowledge experts.

## FEES YOU CAN AFFORD

The example fees in this brochure are based on a double-spaced document such as a conference paper or a thesis or a dissertation. Contact us for pricing on other documents.

Our rates are based on a whole page; we prorate the fee for a fractional page. We do not charge for changes made to a coversheet or a title page or a page with very little writing.

We can often save you the pain, the embarrassment, and the disappointment of doing things on your own. Our service is priceless. So why not contact us today?

## OTHER SERVICES

We can provide tutoring in English as a second language (ESL) and in some subject areas. Call for more information.

We can provide translation services.

**WE ARE SERIOUS ABOUT  
YOUR BUSINESS™**

# OUR COMPANY

We are a young company (born on the 20<sup>th</sup> of August 2009), but we are staffed with individuals with deep experience and advanced degrees—Nearly all have graduate degrees and 20% have their PhD degrees. Meet some of the key players.

**Dr. Fred L. Strickland** is the president and Chief Executive Officer. He earned his PhD in computer science from Auburn University. He studied cyber security, information assurance, and other topics. His dissertation explored merging frequency management with sensor networks. He served 21 years in Air Force communications with assignments in the Azores, Korea, Washington DC, and Texas. He has 15 non-civil service federal years in Civil Air Patrol communications. He has taught business and computer college courses since the late 1970s. He has used web based educational packages such as WebCT, Blackboard, and eCompanion. Besides the PhD, he has six other degrees: two Masters (Business and MIS), two Bachelors (computer science and religion), and two Associates (general education and communications technology). He has presented at local, regional, and international level conferences. He has served as an acting chair at two international level conferences. He has published several papers and one book. He has been a reviewer for conference papers. He has reviewed book manuscripts. E-mail address is [fstrickland@stssinc.biz](mailto:fstrickland@stssinc.biz)

**Dr. Heping “Robin” Liu** is the vice-president of operational and management analysis. He earned his PhD in industrial engineering from Auburn University, a Master degree in industrial and systems engineering from Auburn University, a Master degree in management from the Chinese Academy of Sciences, Beijing China, and a Bachelor degree in mathematics from Nanchang University, Nanchang China. He has combined his education with real world experience in both Chinese and American companies. He worked as an assistant engineer in Jiangling Auto Company, as an investment analyst in Shanghai, as an operations research analyst in Norfolk Southern Corporation, and as a buyer in Hoerbiger Automotive Comfort Company. Dr. Liu's research interests include intelligence optimization, statistical analysis and simulation modeling (Flexism and Arena). His strong skill is analyzing complex problems. He is at the cutting edge of Business Intelligence (BI) and he is ready to help organizations of any size with their predictive analytic needs. E-mail address is [hliu@stssinc.biz](mailto:hliu@stssinc.biz).

**There are others.** We have librarians, school teachers, college students, businessmen, and retirees. The educational backgrounds cover English, law enforcement, business, computer science, all types of management, early childhood development, mathematics, engineering, religion, accounting, military topics, leadership, and so on.

## THE NEED TO WRITE WELL

One of the more difficult challenges of life is writing. There are homework assignments, major research projects, and other written tasks. In some degree programs a final document such as a thesis or a dissertation is required. Some programs might require the student to submit scholarly papers to conferences or to journals.

There are application packages, resumes, complaint letters, and letters of defense. A well-written resume could gain a job interview; a poorly written resume will never land a job interview. A well-written, emotionless complaint letter may obtain the correction that you are seeking. If you had an accident or if you have received a ticket, sometimes the authorities will accept a letter explaining your position.

## WHY USE OUR COMPANY?

Yes, there are other companies and private individuals that do document review and some will do this for a lower charge. We are different and we are better.

We find out what **you** want done. We find out if **your** document needs to conform to a certain style guide. For example, the APA style is very different from ACM or from IEEE styles. We read to understand **your** topic. Then we look at the actual writing. We make changes that will make **your** statements clearer. We ask **you** questions when we are not sure what **you** are trying to say. If a reference list (a list of citations) is used, then we check these for format and accuracy. We are not done until **you** are happy with the revised document. We will do our best to finish the work at least 24 hours before **you** need to submit the document.

We are always mindful that **you** are “the boss” and we will work to please **you**.

We have helped university students and visiting professors from such locations as Alabama, Washington state, and China. We are ready to help **you!**
